

**Think Silage, Think Co-Op Source**

**Co-op Source Silage Wrap is easy to use and you can be assured of top class results.**

- **High performance** extra strength silage wrap that gives you trouble free performance whatever the operating conditions
- **Excellent** tear resistance reduces the chance of breakages at the start of the bale wrapping cycle
- **High** puncture resistance to combat damage from sharp crop stubble as well as when bale handling and stacking
- Extra **'clingability'** for an airtight seal when wrapping to protect forage quality
- **Recommended** for use on all high speed bale wrapping machines
- Manufactured in **Ireland**

**Co-op Source Premium Choice Silage Net is the professionals' choice & covers right to the edge of the bale.**

- **Full cover** means bales keep a better shape making them easier to handle and transport
- **Even shape** bales are easier to wrap so forage quality improves
- Well wrapped bales store and stack more tightly which **reduces losses** from weathering and wastage
- Feeding out is **fast and easy** with easy to remove net
